Configuration

Please note that you need to purchase **at least** the number of Scanner Plus licences you have on your master site. Scanner Plus can then be used on this and ALL sub-sites or undocked users with the same GoldMine number. Scanner Plus is keyed to the GoldMine licence number. It is not the number of actual users but the total licence count of your GoldMine system which matters!

For a GoldMine 6.7 system, to see these, click Help|About in your **central/network** GoldMine. This will show a licence number such as E-NNNN-YYYYYYYY as shown on the right, where 0005 is the licence count and the **8 digit number** 60165731 is the main GoldMine licence number.

Note that Scanner Plus is not compatible with GoldMine 6.6 or previous.

For a GoldMine 7 or Premium Edition system, still click Help About but the number shown will be like E-0005VV-123456-XXXXX-XXXXX-XXXXX. Here the 0005 is the licence count and 123456 is the licence number which is **6 digits only**.

If you are installing a **new GoldMine system,** you may have one or more GoldMine licence certificates to install. In such cases the 6/8 digit number is the number shown on the **first** licence you install and the total number of licences is the sum of the licence counts shown on the certificates.

Please complete the information below:

Main/Overall Site

Note: To get this information see the notes above

Number of licences required: _____ 6/8 digit GoldMine licence number: _____

Note: this is 8 digits for GoldMines 6.7 but 6 digits for GoldMine 7/Premium Edition

If you are in doubt please contact us for assistance.

Details of Reseller

Does not need to be completed by end users ordering directly.
